WORKSHOP

June 30, 2026: CBSE Capacity Building Programme Insource training on Computational Thinking and Artificial Intelligence

Mind Tree School hosted a highly enriching CBSE Capacity Building Programme Insource training on Computational Thinking and Artificial Intelligence for teachers on 30 June 2026. The workshop was expertly facilitated by esteemed faculty members Ms Reema Magoo and Ms Shikha Manrai, who inspired educators to embrace the future of technology-enabled learning with the mantra "Think, Solve, Create and Innovate."

The session provided an in-depth understanding of the four pillars of Computational Thinking—Decomposition, Pattern Recognition, Abstraction and Algorithmic Thinking—empowering teachers to cultivate structured problem-solving skills among students. A comprehensive and insightful Hands-on AI Bootcamp followed, featuring an extensive PowerPoint presentation that introduced a wide range of cutting-edge AI tools, their practical applications and effective strategies for integrating them into classroom teaching. Through interactive demonstrations and hands-on exploration, the workshop equipped teachers with valuable technological competencies, making it a truly transformative learning experience that reinforced the significance of leveraging Artificial Intelligence to enrich teaching, foster innovation and create engaging, future-ready learning environment.

August 29, 2026 : CPD Training session on "Stress Management and Coping Skills."

Ms. Sonali N. Bhasin, School Counsellor conducted the training session for the teachers. The workshop focused on helping teachers understand common stressors, recognise warning signs, and develop healthy coping strategies to enhance emotional well-being and professional effectiveness. Through interactive discussions and reflective activities such as "What I Can Control and What I Cannot Control," teachers explored practical approaches including time management, prioritisation, positive thinking, relaxation techniques, effective communication, healthy boundaries and maintaining a balanced work-life routine. The engaging session encouraged teachers to pause, reflect, and reconnect with their emotional well-being while reinforcing the message that self-care is essential to being an effective and emotionally available educator.

August 29, 2026: CPD Session on Curriculum and Assessment:

Mind Tree School organised a one-hour CBD session conducted by Dr. Gurvinder Kaur Panag, focusing on curriculum planning, assessment and professional development. The session provided a detailed discussion on the curriculum for Grades IX and X, along with an overview of the progress report cards for Grades IV - VIII and Grades IX. The NISHTHA courses were also discussed, highlighting their importance in continuous professional development. The informative session offered teachers valuable insights into curriculum implementation, assessment practices, and their role in strengthening teaching and learning outcomes.
