

Mind Tree Becomes a Chain of Schools

Mind Tree School is always on the forefront for providing quality education. The past eleven years have seen us blossom into a world class school in Ambala and Greater Mohali.

The moment of glory is here! We have our own school in IIT, Mandi. The name IIT speaks volumes of the top-most premier government educational institution in India. It was a moment of great honour and pride for us when the management council of IIT, Mandi visited our schools and chose us, as their desired brand, to run their campus school in IIT, Mandi. This decision came after close introspection of our academic and non academic systems, strategies and aspirations. Not just that, we also faced stiff competition from a number of schools of high repute and history from all over the country. Continuing with the same pride, we feel profound joy to state that two more schools in Nahan and Naraingarh have got our franchise. The new additions will enable thousands of students to build their intellectual, physical and social capacities and become responsible citizens with a sense of national and global identity.
