**October 10-14, 2022: Trip to Agra (Agra Ki Khoj):**

**Agra Ki Khoj**

**Day-1**

**Visit to Agra Fort**

Starting their journey under the sparkling stars and bright moon, the students of Mind Tree School along with Ms Anuradha Saini, Ms Pratima Bharti, Ms Setu Rehan, Mr Sanjeev Sharma and Mr Rajnish took the night to adventure; to discover the magic of the beautiful city, Agra.

On day one, they were captivated entirely by the Agra fort: a marvel in red sandstone. This fort, made by emperor Akbar depicts fusions of Gujarati, Rajasthani and Muslim architecture in a perfect blend. This gave an amazing start to their journey of exploring the city.

### 'Agra Ki Khoj'

#### Day-2

MindTreeans explored Fatehpur Sikri 'where the great Buland Darwaza, also known as "Gate of Magnificence" standing mighty, welcomed them. Red sandstone adorns the facade of all the buildings but a beautiful eye-catching building was in all white, the dargah of Sheikh Salim Chisti. It is believed that if you ask for something with all your heart here, it comes true. Intricately carved nets cover the dargah, in a Mughal style, marble mausoleum.

Akbar's City, the first planned city of the Mughals, has an amazing architecture and is an exceptional testimony of Mughal civilisation. But truly, it wasn't just the destination that held a lot of fun in store for the students but the journey too made it unforgettable.

Visit to Fatehpur Sikri wasn't just the destination, but an experience and a memory to cherish forever!!

### Agra Ki Khoj

#### Day 3

The sight of the blue skies filled with joy, blades of grass springing up in the fields, was a sight to behold! The students felt so alive at Bharatpur Bird Sanctuary, home to the finest birds and faunal species. The park got its name from Keoladeo Temple that is located inside the boundary of this sanctuary. It was fun to walk around the area experiencing light showers side by side. The students gained a lot of information about flora and fauna at the World Heritage site. The primary attractions of visitors going to the Keoladeo National Park are the various migratory birds, coming from as far away as Siberia and Central Asia to spend their winters in Bharatpur, before flying back to their rearing grounds.

Young explorers were able to spot a few migratory birds like cranes, pelicans, geese, ducks, eagles, hawks, shanks, stints, wagtails, warblers, wheat ears, flycatchers, buntings, larks and pipits. Mind Tree students witnessed the flora and fauna, testimonial to the fact that our country is truly blessed with an exceptional biodiversity. It was an unforgettable experience!

Agra Ki Khoj  
Day-4

Visit to the impressive mausoleum-The Taj Mahal

On the last day of the trip, the students visited the glorious Taj Mahal early in the morning. Its beauty lies in its perfect proportions. The octagonal structure is topped by a fine dome, balanced by four tapering minarets situated at the edge of the platform. It is a sight of pure beauty and the play of sunrise on it was just mesmerising!

The students also visited the tomb of the great emperor Akbar.

It, indeed, has been a phenomenal experience! We look forward to explore more such hidden gems in future!

Agra is like a storybook city that unravels the history of the Mughal empire as you visit one archeological wonder after another. It has much more than the spellbinding Taj Mahal. The Agra Fort is another fascinating site to visit. It had been a great experience to have my first visit to Agra with my teachers and my friends. It has left a deep, unforgettable impact on my heart. I made so many new memories that now when I think about them, it feels as if I have travelled back in time.

- Chinmayi, VII-D

The visit to Agra with my friends and teachers had indeed been the most mesmerizing and memorable. As I walked in The Taj Mahal, I could feel a sense of unexplainable mystery as if the love was still very much thriving there. Not only this, the city of Agra with its rich culture and heritage left an indelible impact on my heart. I wished the time to halt when we were there. This was the finest trips of my life.

-Kashvi, IX-C

Visiting Agra was, indeed, a cherishable experience . The city, with its rich heritage, oozes peace and tranquility offering us the opportunity to discover the beautiful era and its numerous monuments which are like a treasure for the nation.

- Savvnie Thapar, IX-B

**October 19, 2022: "Khisa"(Pocket) Movie shown to Grade IV-V:**

Grade IV & V students enjoyed an internationally acclaimed movie 'Khisa' in the company of the Director.

The short film "Khisa" (Pocket) is a winner of 21 International & National Awards and has been screened at various National and International film festivals.

It is a story of a boy who gets a large pocket stitched on his shirt and keeps his valuables in it, but very soon his pocket becomes a bone of contention amongst the villagers. This tragic story of the loss of innocence and coming-of-age of a young boy, is ironically, symbolic of the times we live in.

Mr Raj More, the director of the movie and the winner of the prestigious 67th National Film Awards for Best Debut Director enjoyed watching the movie with the kids.

Mr More is also an exemplary artist who participated in the 9th Painting Camp at Mind Tree School, Panjokhra.

This was, indeed, a memorable experience for the students!

**October 29, 2022: 'Fun Day' for Grade IV-V:**

A fun day was organized for grade IV and V. They enjoyed participating in various competitions with no studies at all! The students participated with full zeal and enthusiasm for all the competitions that were organized for them.

The Details of the competitions are given below:

**November 14, 2022: Special Assembly on Children's Day:**

**Children's Day Celebration! 'The best way to make children good is to make them happy.'**

**- Oscar Wilde**

Children's Day was celebrated in high spirit as the students put up a great show! From reciting poems to tapping their feet on jazz, from sharing their opinions on the modern childhood to twirling to the folk tunes of Rajasthan, from being grateful to enjoying the heart - touching songs, it was, indeed, a special occasion. Here's a glimpse:

This occasion was celebrated by our school with lots of love. The dance performances were delightful and the complete celebration was like a cherry on the cake.

**- Saanvi Sharma-V-B**

"A child's mind is similar to a river flowing towards the ocean. Unstoppable until it meets it's goal." A spectacular celebration was held on Children's Day for a forever-present memory in our hearts. Speeches and dances and songs presented by the students of our very own school elevated all of us.

**- Nimrit Saini- VII-B**

Emotions and excitement was running through our mind like a bullet train, pushing thousands of escatic thoughts in our mind at an incredible pace on a very special Children's Day celebration just for all of us. I am grateful to my teachers for bringing a beautiful smile on every child's face.

**-Divyansh- VIII-B**

**November 17, 2022: The 9th National Painting Camp:**

Art is unquestionably one of the purest and highest elements in human happiness. It trains the mind through the eye, and the eye through the mind. As the sun colours flowers, so does art colour life.' The 9th National Painting Camp at Mind Tree School, Panjokhra was truly a feast for the eyes and the soul! Artists' collages, oil colours, acrylic colours deftly wove the concept of Indian family, love for nature and salvation. The first hand experience of glimpses of art work, truly stimulated and inspired our art students. You can listen to their minds on 'Jigyasa', an upcoming show only on Radio Mind Tree 91.2 FM. Loads of appreciation to our artist of the school, Mr Mohan Shingne for the content curation and making the camp a great success. The following eminent artists from varied parts of India added hues to this camp:

**Sabia Khan (New Delhi)**

**Farhad Hussain (New Delhi)**

**Pramod Babu Ramttekey (Nagpur)**

**Arunanshu Chaudhury (Vadodhara)**

**Paindit Khairnar (Nasik)**

**Raj More (Mumbai)**

## November 19, 2022: Star Gazing Night Grade IV, V & X:

### Beholding the Glory of the Night Sky!

For the students of Grades IV, V & X, star gazing was an amazing learning experience as it unfolded the hidden mysteries of the space. It was, indeed, a night to remember!

From noticing the ISS to observing the Saturn, Jupiter, Mars and the varied constellations, the students not only got a sneak peek into the space but also learnt fun facts about the heavenly bodies.

Guided by the experts from Jyotirvidya Parisanstha, Mr Sarang Sahasrabudha & Mr Atharva Pathak, the students gained a lot of knowledge about space.

'Star Gazing was a unique experience, we had so much fun viewing the beautiful-star studded sky!' remarked one of the enthralled students.

I had a delightful experience of star gazing. I learnt many new and interesting facts about universe. It was my first day to see planets with telescope. Overall, it was a grand experience.

- Vrishank - VI - A

Star Gazing camp organised in our school was very enchanting ,from planets like Jupiter and Saturn to satellites. I was fascinated to see sky with many satellites and planets. Overall, it was an event I can't forget.

- Vihaan Gupta - VII - B

**November 22, 2022: Counselling Session IV-V:**

**'Starry Night- A Unique Event for Space Enthusiasts'**

Nothing else can be so pretty! A cluster of vapour, the cream of the milky way, a sort of celestial cheese, churned into light.

— Benjamin Disraeli

With the onset of sunset, the second night of Star Gazing camp for the students of Grade VI- IX, a fun-learning platform helped our young minds look at some interesting celestial phenomenon. Curators from Jyotirvidya Parisanstha, Mr Sarang Vandana & Mr Atharva Pathak, made the evening informative and developed a scientific temperament in students. The thrust of the Star Gazing this time was to show students man-made satellites like the habitable International Space Station & how they work. They were shown the legendary Hubble Space Telescope– one of the largest, most versatile, and vital research tool for astronomy. Sky was so beautifully clear that students were lucky to glance many satellites, planets, constellations and an insight to various nakshatras. Our students have woven a myriad experience around the sky-be it unique stories of the constellations, discussions on space science, or exploring the infinite offerings of Astronomy- they covered a lot. It was truly a treat for the astronomy enthusiasts!

Counselling the students on 'Good Touch Vs Bad Touch' in order to enlighten the students on the ideology of touch, Dr Neeru Attri, conducted a counselling session for Grades IV & V on November 21 & 22. Dr Attri is a renowned psychologist and life coach from Chandigarh with over 10 Years' experience in mental health, psychometric assessment, training, life coaching and counselling. She is the author of the book 'Deciphering Young Minds' and is a part of team of experts in NCERT Helpline to provide psychological support to students, teachers, parents and also has been providing Live Sessions on Swayamprabha Channel. It was an interactive session wherein the students opened up on the various issues they have faced.

**November 23, 2022: Talk on 'Practice makes progress, not perfect':**

Suyash of class IX-B proffered his moving opinion on the real meaning of the word 'No'. He used history as an eye-witness to prove how 'No' doesn't convey rejection but 'Next Opportunity'. Saksham Jain, another astute student of the same class voiced his belief on how history repeats itself and how one person's story inevitably becomes another's survival guide. Our dear students with a prowess at literature are truly the pride of our school. Ananya Arora and Niharika Dhingra presented a motivational story about how some of the empowered women of our world flourished against all odds and eloquently encouraged their fellow peers to learn from these examples. Vani Jain of the same class is one of the few child prodigies who just has a way with words. She filled the room with the positive aura of her self-composed poem 'What it's like to be a star'. The poem deals with the beauty of nature and encourages the listeners to try their level best for no matter what, their light shall never go unnoticed.

**December 03, 2022: 'Fun Day' for Grade IX-X:**

A Fun Day was organized for grade IX and X to make them enjoy through participating in various competitions with no studies at all! The students participated with full zeal and enthusiasm for all the competitions that were organized for them.

**December 03, 2022: 'Readathon Competition' Grade IX-X:**

To promote reading culture among our students, Mind Tree has initiated a new venture entitled 'Readathon'. Students had already participated enthusiastically in Prelims of Phase 1. The final round quiz was organized and it was a huge success as the students participated with fervour and passion. The winners are:

Winning Team			
IX	Manan Munjal - B Pankhuri Kulshrestha - B	Anhad Antal - B	Ananya Arora - B
X	Kamneev Inder S. Cheema - B Kunal Saini - B	Vritee Mittal - B	Parth Walia - B

**December 07, 2022: Talk on 'Inspiration does exist, but it must find you working for':**

In order to experience inspiration in our everyday lives, we have to be doing the mundane work. Kunal Saini and Jigyan Gandhi of grade 10th B presented their views in the form of a splendid thought and a marvellous talk respectively. They illustrated the true power of this quote given by Pablo Picasso by telling us that if we aren't ready, inspiration can come and go, and we might not even notice.

**December 08, 2022: Talk on 'Worry is a misuse of imagination':**

Worry does not empty tomorrow of its sorrow; it empties today of its strength. Zoya Makhija of class 4th E expressed her ideas about this in an impressive thought. Another charming student of the same class, Hiya Dudi presented her creativity in a well-written talk indicating it is our imagination taking us to some of the worst possible places, and envision the worst possible outcomes. Kushagra Saini expressed his well-written poetry expressing that our imagination, is a great and powerful force in our lives.

**December 09, 2022: Talk on 'Don't worry about failures. You only have to be right ones':**

When it comes to innovation, creativity and risk-taking – failure is a poison! It makes you worry about outcomes that might not happen at all. Dazzling stars Arshnoor and Manvi Goyal of grade 6th E manifested their perspective on the same in an alluring talk and a motivating thought respectively. They showed us that failure should not be seen as a snake that leads us back to square one rather the ladder that pushes us closer to the top.

**December 12, 2022: Talk on 'If you do not like the road you are walking, start paving a new one':**

You don't have to walk someone else's road. Just because one strategy worked for the guru, doesn't mean it'll work for you. Gaurisha Kaushal and Lavanya Malik of class 10th C conveyed that you should enjoy the job or the subject and if you actually do it, you will not require anyone behind you to push you.

**December 14, 2022: Talk on 'If it makes you nervous, you are doing it right':**

'Being nervous isn't bad, it just means something good is happening.' Saanvi and Irri Kocher of VII-A helped tap into the true gist of this quote by Michael Jordan through an elaborate talk and eloquent thoughts respectively.

**December 15, 2022: Talk on 'I choose to make the rest of my life, the best of my life':**

'Everybody dies, but not everybody lives'. Riddhi Singla of IX-C voiced her opinion on this profound thought, advising the audience to heed the warnings of one's heart and mind; Rajveer Singh presented a moving speech on what he believed to be the optimal way of taking small steps that lead to a bigger tomorrow so that at the end, one is at peace with oneself.

**December 16, 2022: Talk on 'What you do today can improve your tomorrow':**

Getting the most out of life takes some planning. If you plan what you are going to do today, it truly improves your tomorrow. Nayonika and Saanvi Sharma of class 5th B explained that exciting things happen when you make an effort to be sure each day's activities are productive and worthwhile through thought. Today's habits create tomorrow's rewards. When you make an effort to do your best in all you do, you are sowing the seeds of greatness. You are preparing for a bountiful life harvest in all of your tomorrows.

**December 19, 2022: Talk on 'We should not give up and we should not allow our problems to defeat us':**

We should not give up, no matter what happens in our life. We should not allow the problems to defeat our goals and dreams. Anish Chanana of 7th B expressed his views in the form of a thought by telling us that if you start something new it's an obvious thing, you're going to face some issues. Don't give up just because things are hard. Aastik Arora of the same class elaborated the same by a talk telling us to remember there is nothing like overnight success. Success belongs to those who work. You have to face the problems and if you fight with your problems, you surely win.

## READING TO ME IS...

'To read is to fly: it is to soar to a point of vantage which gives a view over wide terrains of history, human variety, ideas, shared experiences and the fruits of many inquiries'.

**-A.C. Grayling**

Reading, indeed, is the most constructive habit that one can inculcate, for it helps one sail smoothly through this journey called life. We, the Mindtreeans, continuously keep striving to not only cultivate but also to nurture a consistent reading habit among our students. Shared below are the heartfelt words of our voracious readers, giving a glimpse of how reading influences their young minds and nurtures their soul.

The lucky person in the world is the one who reads and cherishes the most valuable gift i.e books; and as I am an avid reader, I feel blessed and lucky.

**- Reva - VII A**

Reading for me is entering the world of fantasy and adventures which makes me feel all refreshed. It has become a part of my life I think reading is dreaming with open eyes.

**- Diya - VII B**

Reading is a gateway that takes me to an imaginary world. I personally feel, this world can control my emotions and help me relax. My day goes incomplete without getting lost in the world of fictional characters.

**- Ruhin Jain - VII C**

Reading to me is a portal from this ordinary world than extraordinary one, from my school to Hogwarts, Football to the Hunger Games, my nightmares to a Big Friendly Giant, and my home to a Hobbit Hole, allowing me to explore beyond this universe limitations.

**- Samridhi Oberoi - VIII A**

For me reading is immersing myself into a world full of fantasy where I am free to open up my wings and fly as high as I can. It always makes me refreshed. Additionally, it encourages me to boost my imagination, creativity and communication skills.

**- Jannat - VIII D**

# Educators' Corner

December 07, 2022: Workshop on Counselling in School Education by India International Educational Conclave:

**"The art of teaching is the art of assisting discovery."**

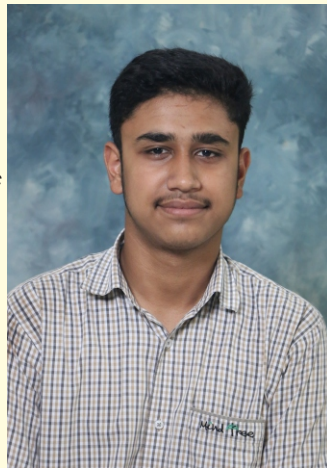

It has been a constant endeavour of Mind Tree school to take initiative and discover newer avenues when it comes to transforming teaching. One such endeavour is to equip its teachers with skills to deal with socio-emotional needs of children.

Hence, a panel of four educators, Ms Pratima Chaswal, Ms Anu Puri, Dr Parkee Bhatnagar and Ms Gitanjali Vohra from Mind Tree School got the opportunity to attend India International Education Conclave for School Principals on Delivering Guidance and Counselling Services in the New Socio-Educational Environment organised by Institute of Counsellor Training Research and Consultancy from 7th to 9th December, 2022 at Wayanad, Kerala.

The conclave was attended by principals and counsellors of various national and international schools. It was an enriching experience and highlighted the growing need for a well laid out Guidance and Counselling program in every school. Renowned psychologist Dr V. S. Ravindran, Prof. Keshav and Mr Aditya Nair were the resource persons. Here are some glimpses:

## Heartfelt Tribute to Angad

*A cherubic face so full of grace,  
In umpteen hearts Angad made  
his space.  
His tranquil gaze engrossed us  
all,  
An amiable teenager, charismatic  
and tall.  
Ringed with friends, playing with  
spirited rife,  
He kicked the final goal of his  
life.  
Believing this is difficult, still  
somehow we try,  
The saddest word mankind  
knows will always be "Goodbye".*

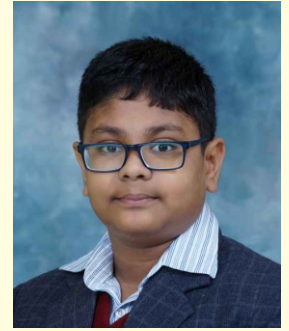

'Heavenly Father, we ask for your mercy and grace for Angad as he begins his journey into eternal life. We also pray for those who are left behind, that they find comfort and hope in your presence and the promise of seeing their loved one again.' Amen!

A prayer meet was organised on December 6, 2022 by the students, the staff and the management of Mind Tree School for the departed soul of our dear student Angad Singh of Grade X. It is, indeed, an irretrievable loss and has left us all bereaved. Even though Angad is not amongst us anymore, he will continue to stay in our hearts forever. We love you Angad and may the Almighty bless you with eternal bliss!
